OFFICE OF PETITIONS

PETITION FOR REVIVAL OF AN APPLICATION
FOR PATENT ABANDONED UNINTENTIONALLY UNDER 37 CFR 1.137(b)

1. The above-identified application became abandoned for failure to file a proper reply to a notice or action by the United States Patent and Trademark office. The date of abandonment is the day after the expiration date of the period set for reply in the Office notice or action plus any extensions of time actually obtained.

2. This petition is filed within one year of the date of abandonment.

3. This application became abandoned unintentionally, because the Submission of Color Photographs Pursuant To 37 C.F.R §1.84 filed October 2, 2003, treated therein as a petition to accept color drawings or photographs under 37 C.F.R §1.84 was denied and the period for reply to the Office letter mailed September 26, 2003 for which the submission was in response to was unextendable.

4. Applicant was directed to correct informalities as indicated in the Notice to File Corrected Application Papers mailed September 26, 2003 and given 30 days to do so. Failure to reply would result in abandonment.

5. Accordingly, Applicant timely filed on October 2, 2003 a "Submission of Color Photographs Pursuant to 37 CFR 1.84 which included as requested in the Notice: 1) "Figure 11-15 appear to be color photographs. Please supply three

copies;" and 2) "on page 7 please supply statement which cites color photographs in file."

6. Applicant called the USPTO and left a message for RoChaun M. Johnson and spoke with a RoChaun M. Johnson on October 17, 2003 to learn that she had received the photographs.

7. Applicant again spoke with Ms. Johnson on October 27, 2003 and was told no Petition was needed and that the case was fine.

8. Subsequently, Applicant spoke with supervisory patent examiner Steven P. Griffin and was told that a Petition was required and that he would treat the Submission as such. Furthermore, a Decision on Petition was mailed March 4, 2004 and the Petition was denied because it did not amend the specification to include the language set forth in 37 C.F.R. 1.84 (a)(2)(iv) and did not provide an explanation stating why color photographs were necessary. Accordingly, a Notice of Abandonment was mailed on April 15, 2004.

9. A Petition to Accept Color Drawings or Photographs under 37 C.F.R §1.84(a)(2) and (b)(2) is enclosed herewith. Accordingly, the Petition states that it is for the acceptance of color photographs, it amends the specification to include the language set forth in 37 CFR § 1.84(a)(2)(iv) and it provides an explanation stating why color photographs are necessary. The Petition Fee under 37 CFR 1.17(h), was previously charged to Deposit account 501447 (Potter Anderson & Corroon LLP).

10. As noted in the Decision on Petition the "petition (submission), which was submitted in response to the office letter mailed September 26, 2003, includes (1) the fee as required by 37 CFR 1.17(h) [note – the fee has been charged to applicant's deposit account as authorized in the submission] and (2) three sets of the color photographs." Accordingly, Applicants have not included the petition fee nor have they included the color photographs.

11. In November, 2004 Applicant called the USPTO helpline and confirmed that resubmission of the color photos was not needed so long as a clear paper trail was made in the Petition so that the papers could be matched up properly.

12. The fee for Petition to Revive Unintentionally Abandoned Application under 37 CFR 1.17(m), of \$1,370.00 is hereby authorized to be charged to Deposit Account No. 501447 (Potter Anderson & Corroon LLP).

It is Applicants belief that there are no other fees associated with this submission, however, should an additional fee be due please charge such fee to Deposit Account No. 501447 (Potter Anderson & Corroon LLP).

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Thomas R. Mancini', written over a horizontal line.

PETITION TO ACCEPT COLOR DRAWINGS OR PHOTOGRAPHS
(37 C.F.R. § 1.84(a)(2) and (b)(2))

1. This petition is for the acceptance of color:
[] drawings. (37 C.F.R. § 1.84(a)(2))
[X] photographs. (37 C.F.R. § 1.84(b)(2))
2. Submitted on October 2, 2003 were three (3) sets of color:
[] drawings.
[X] photographs.
3. Please amend the specification at page 7 between lines 26 and 27 after the heading BRIEF DESCRIPTION OF DRAWINGS, by inserting the following language:

"The patent or application file contains at least one drawing/photograph executed in color. Copies of this patent or patent application publication with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee."

4. The reason(s) for the need for color drawings or photographs in this application is/are as follows:

Drawings, either color or black and white, are insufficient to adequately depict an accurate representation of the disclosed subject matter of Figures 11-15. Further drawings would not provide the public or the Examiner with the proper perspective

Attorney's Docket No.: 24555-001

as to the effectiveness of the present invention at controlling contaminants. Therefore, the color photographs are necessary because they are the only practical medium to clearly show the present invention.

Figure 11 shows the lack of clogging of the eyes of the canvas, and the lack of stain of the paper caused by the contaminant and the silicone oil contained in the surface treatment agent.

Figure 12 shows the lack of accumulation of the containment on the surface of the outroll as well as the lack of stains on the paper caused by the contaminant and the silicone oil.

Figure 13 shows the adhesive material clogging the eyes of the canvas, in a number of parts thereof.

Figure 14 shows the adhesive material lumps that accumulated on the surface of the outrolls.

Figure 15 shows the results of a comparison of embodiment 1 with that of comparative example 3, wherein the constituents of the contaminant were sampled by applying a polyester adhesive tape to the surface of the canvas.

5. As noted in the Decision on Petition the "petition (submission), which was submitted in response to the office letter mailed September 26, 2003, includes (1) the fee as required by 37 CFR 1.17(h) [note – the fee has been charged to applicant's deposit account as authorized in the submission] and (2) three sets of the color photographs." Accordingly, Applicants have not included the petition fee nor have they included the color photographs.
6. In November, 2004 Applicant called the USPTO helpline and confirmed that resubmission of the color photos was not needed so long as a clear paper trail was made in the Petition so that the papers could be matched up properly.
7. Should there be any additional fees required by this paper or credit for any overpayment authorization is hereby given to charge Deposit Account 501447.
